

The Jim Cummings Band

Biography

JCB has been together for approx. 8 years.....evolving into the present unit. Every member is a "musicians musician" in that collectively and individually, they represent top-drawer, virtuoso performing. Jim Cummings has played with such people as Greg Allman, Edgar Winter, Odyssey, and a whole bunch more. Jim Klein is a transplanted LA Guitarist. Jesse and Tom alternate on the Drum duties....each one a unique punch-machine. Yeshwua has played on nearly every continent with too many to mention. Chris toured the world with Jr. Walker and the All-Stars. Obviously a wide diversity of influences, but what sets it apart is, quite simply, these guys play their _____ off, every time they step on stage. Proof of the pudding is.....listen to the CD (Cdbaby.com) or on the website, and decide for yourself.
